

The Conscious Leadership Experience

The most crucial aspect of leadership development:
HOW WE LEAD OURSELVES

The Conscious Leadership Experience develops
individuals wanting to see change in the world—
BY FOCUSING ON THE LEADER WITHIN

Join Kansas City's leadership development journey for next-gen changemakers ready to make a difference in their companies, communities, and beyond.

The Conscious Leadership Experience was more than a program, it was a pivotal life experience for me. Through the content, the connections, and exposure to Conscious Leadership in action, it was an opportunity to explore my purpose, recommit to my values, and identify the leader I want to be.

Cassie Goodman, Vice President
DH Pace Company, Inc.
